Primary Logo - Clear Space

Minimum clear space is presented here as a guide to positioning the logo a visually safe distance away from other elements.

It is essential that the Moment in Light logo remain free of typography, photography, and other design elements. The Moments in Light logo must always be the most legible and viewable element in any given graphic space.

Use the height of the “M” of the word mark MOMENTS as a measurement for the minimum amount of allowable clear space. Do not place any elements inside this clear space.

Colour Palette

The Moments in Light colour palette is made up for four colours. These colours work in combination to highlight the organic and harmonious moments captured through elegant photography.

The primary colour palette is made up for Champagne White, Misty Elegance and Midnight Velvet. These colours are to be used for type and backgrounds.

The accent colour is Harmony Green. This is to be used for adding pops of colour to a design, whether that is for a document, social media or website.
